

From our entire team at Gainesville Dermatology, please know we are thinking of you and your families during this difficult time.

We're closely monitoring the situation about the coronavirus (COVID-19) and following guidance from public health officials and government agencies, including the Center for Disease Control and World Health Organization, so we can make ongoing assessments and stay in constant communication with our patients and clients.

Our highest priority is the safety, health and well being of our patients and staff. The cleanliness of our office is always a top priority for us, and now more than ever. In addition to our regular cleaning procedures, increased sanitation measures are being added. We have increased the frequency of cleansing door handles, bathrooms, treatment rooms and our lobbies. We have also removed all magazines and brochures in the waiting room.

At this current time our Medical office and Aesthetic center are still open to patients and clients for appointments, until further notice. We ask that you be considerate of other patients at this time. If you have been exposed to someone who has COVID-19, have traveled internationally in the last 14 days or are experiencing any symptoms such as: fever, cough, shortness of breath, sore throat, muscle aches or headache, we ask that you please cancel your appointment.

We know that many of you are practicing "social distancing" right now, and it can be stressful. We hope that while you are figuring out how to restructure your daily activities and manage the changes to your schedule, you can also plan time for self-care. As circumstances continue to change, our goal is, and will continue to be, to provide a safe and welcoming destination for everyone.

We appreciate all of you and stay healthy!

Your Gainesville Dermatology and Aesthetic Center Team
