

From our entire team at Gainesville Dermatology, please know we are thinking of you and your families during this difficult time.

Our highest priority is the safety, health, and well-being of our patients and staff. As members of the medical community, we follow the latest updates from the World Health Organization, the CDC, and fellow members of the medical community regarding public health developments.

The cleanliness of our office is always a top priority for us, and now more than ever we're ensuring regular cleaning procedures as well as increased sanitation methods are followed. We have increased the frequency of cleansing door handles, bathrooms, treatment rooms, and our lobbies and we have also removed all magazines and brochures in the waiting room. It is also our policy for staff to wear masks and to incorporate hand sanitation into their daily routines.

We ask that for the foreseeable future our patients avoid bringing any family members or guests to their appointment. If it's necessary for someone to accompany you to your visit, please limit it to ONE person.

We sincerely appreciate your cooperation in joining us to guard the health and safety of our patients and staff. We hope that you have confidence in us as we expand our cleaning and health safety measures during this time. If you have any questions, please feel free to ask any of our providers or staff.

- Your Gainesville Dermatology and Aesthetic Center Team
